

Team Name: _____ Date: _____

Lunch in Outer Space! Activity – Design Worksheet

What are the three main steps in the engineering design process?

- 1.
 - 2.
 - 3.
-

What specific problem is your team trying to solve?

What device will your team build to help astronauts eat in outer space?

What are some foods can your device be used to eat?

Please draw your device below and label the different parts:

- Have your teacher check off this box when your design is completed. Once your design is ready, and the box is checked, you can begin building!
