## Scaling a Figure Post-Quiz Answer Key

Instructions: Choose one of the following answers (A-D) to complete each sentence. Note: The answers may be used more than once or not at all.

- A. one-third as large as
- B. the same size as
- C. three as large as
- D. nine times as large as

Suppose we *triple* the size of a figure.

- 1. The general shape of the figure will be  $\underline{C}$  the original figure.
- 2. The lengths of any line segments in the figure will be  $\mathcal{C}$  the segments in the original figure.
- 3. The perimeter of the image will be  $\underline{C}$  the original figure.
- 4. The area of the image will be  $\underline{P}$  the original figure.
- 5. The angles of the image will be  $\underline{B}$  the original figure.
