

Project Idea Homework

It is time to start thinking about a culminating project for this energy unit. Remember. Write down one project idea that you like the most, and two alternatives in case you cannot follow through with the first.

Examples: (Do not write down these as your project ideas unless you are serious about following through)

- *A poster describing the positive effects of wind power in the region*
- *A public service announcement about how to save energy in your home*

1. _____

2. _____

3. _____
