## Weather Words Worksheet

- 1. Complete the missing information in the table below. Use your dictionary and Internet resources such as Fact Monster at <u>http://www.factmonster.com/ipka/A0907017.html</u>.
- 2. Add to the table as many additional weather words derived from Latin and Greek roots such as precipitation, temperature, cirrus, cumulus, stratus as you can. Identify the roots, prefixes and suffixes. Try guessing the meanings of unfamiliar technical terms based on the roots, prefixes and suffixes you learn.
