

## Standards and Codes Search Worksheet

Names \_\_\_\_\_

Date \_\_\_\_\_

Work with your partner to conduct research to answer the following questions.

1. What is the design challenge that you are working on?

### Suggested websites to use:

- Standards.gov: [http://standards.gov/standards\\_gov/standards.cfm](http://standards.gov/standards_gov/standards.cfm)
- US government regulations: <http://www.regulations.gov/>

2. List *three* possible standards that relate to the design challenge. (Example: size of fasteners, footprint, etc.)

3. List *three* possible safety issues that relate to the design challenge. What existing codes relate to those issues?

4. List *three* possible environmental issues that relate to the design challenge. What existing codes relate to those issues?
