

Name: _____ Date: _____

Solar Cooker Worksheet

1. What are two reasons for using a solar cooker?
2. What type of solar cooker did you build?
3. In the table below, record the time and temperature of the water in your cooker and the temperature of the control. Use the appropriate units.

Time	Cooker Temperature	Control Temperature
START		

4. On the back of this worksheet, graph the water temperature in your cooker and the control temperature over time. Remember to label the axes with the measurement units. →
