

Sketch Assessment Rubric

Score	Floodplain Sketch Criteria
4	<p>River is in center of drawing. Colored arrows show path of water during a flood. Sketch shows placement of houses for all three trials. Sketch shows safer locations for each house. Sketch includes a color coded key. Sketch is neat and easy to read.</p>
3	<p>River is off center. Arrows show path of water during a flood. Sketch shows placement of houses for all three trials. Sketch shows some safer locations for some of the houses. Sketch includes a key. Sketch is neat and easy to read.</p>
2	<p>River is off center. The path of the water is colored on with messy lines instead of arrows. Some of the houses are included in sketch. Some safer locations for houses are included in sketch. Key and sketch are not easy to read.</p>
1	<p>Sketch is missing main components (river, houses, flow of water). No key is included. Sketch is messy and hard to read.</p>
