	<b>1427</b>

example answers  
(there are many acceptable solutions)

This total is your “carbon footprint” in the number of pounds of carbon dioxide per year. The lower the number, the fewer greenhouse gasses are emitted into the atmosphere.

Review your choices in the survey. **What changes can you make in your life to reduce your carbon footprint?** Try to make some of these changes in the next week. Use the space below to engineer a plan to reduce your carbon footprint.

**Example answer:** I could reduce my carbon footprint by eating less meat. I could also hang dry my clothes and unplug my chargers when I’m not using them.

Things I will turn off:

**Example answer:** I will make sure to turn off my computer, TV and video games when I am not using them.

How I will get to school:

**Example answer:** I will walk or ride my bike to school every day, and talk to my friends about carpooling to sporting events in the future.

What I will eat:

**Example answer:** I will eat more fruits and vegetables this week, and less meat and bread.

How much I will use electronics:

**Example answer:** I will cut down my TV watching to three hours per week.

What I will recycle:

**Example answer:** I will continue to recycle anything that can be recycled, and choose second-hand and recycled items when available for purchase.

Other things I will do:

**Example answer:** I will unplug my phone charger when I am not charging my phone. I will also walk to my friends’ houses instead of getting a ride.
