Peer Evaluation: THE TEST! Will It Fit?

Instructions: Complete the document below to help your peers determine whether their current design will fit into an eye.  

Engineering team name: ________________________________

1. Write the names of the designers you are reviewing:

2. Draw a picture of the team’s design. Include the dimensions, side view and top view.

3. What is the approximate volume of the design?

4. Does the volume of the design exceed that of the printing constraints (22.5 cm$^3$)? How do you know?

5. What recommendations would you make to improve the design of this group’s prototype?
