Na	me: Date: Class:
1.	Lunch Is Served! Post-Quiz Describe in words how you think the AGV in the video followed the floor and how you programmed your robot to follow the reflective tape.
2.	Describe how you got your robot to stop at a specific spot.
3.	When you tested your robot on the final course setup, was your robot able to turn left and right and did it stop at the intended delivery location? Explain.
4.	Reflect upon your observations of your robot and all the other robots as they completed the course. Describe what features made robots successful.

The Lunch-Bot Activity—Lunch Is Served! Post-Quiz
