

Name: _____ Date: _____

Pressure Experiment Quiz

1. Pressure is:
 - a. force
 - b. electric current
 - c. force over area
 - d. area over force

1. What does pressure depend on?
 - a. force only
 - b. area and speed
 - c. force and area
 - d. mass and acceleration

3. Applying the same force over a smaller area will
 - a. have no effect on the pressure
 - b. make the pressure equal to zero
 - c. increase temperature
 - d. increase the pressure

4. To increase pressure, I should
 - a. decrease force
 - b. increase force
 - c. increase density
 - d. increase temperature

5. Engineering is fun.
 - a. true
 - b. false
