Scavenger Hunt

For Homework –

Teacher provides list of 5 items. For each object, students must:

- a. Photograph pictures in JPG format using cell phone or laptop camera.
- b. Copy pictures to one Microsoft Word file.
- c. Email file to teacher. Or, student adds to GoogleDocs and shares with teacher.

Possible items to assign include:

1. Find a material to use to make a mold.
2. Find a model.
3. Find a prototype.
4. Find an object containing nanotechnology.
5. Find an object made of cement in the house.
