Cell Phone Case Expectations and Notes

Category	
Design	The cell phone case is creative and the design fits the needs of the user including being a shape of desired strength.
Lightweight	Weight is not a concern for the user.
Strength	Cell phone case protects model phone after 5+ drop tests from 2 meters.
Cost Effectiveness	Cell phone case is cost effective.
Material Properties	Team understands how properties affect how we use materials (materials engineering). Students identified needs and used a creative combination of materials or a specific material to address the needs of the user.
