Community Center Design Challenge Rubric

Meets or Exceeds Expectations 10 Points	Criteria	Does Not Meet Expectations 0 Points
Goal: Goal: Goal:	**U.N. Sustainability Goals:** Design incorporates at least three of the 17 U.N. SDGs and clearly explains how they are met.	
	Function and Design: Design is highly functional, safe, and accessible for a wide range of users. All necessary features are included.	
Feedback: Feedback:	**Feedback:** At least two pieces of peer feedback are taken into consideration and used in the design process.	
Subset: Subset: Subset:	**Inclusivity:** Design is accessible for & appeals to at least three subsets of community members that are UNLIKE the designer (age, religion, culture, ability, language, gender, etc.).	
	Thoughtful Design: Students demonstrate research that is integrated into the design. Design reflects an understanding of the community's needs.	
	Presentation: Presentation is polished, confident, and engaging. Students maintain eye contact and speak clearly.
