## Making Sense Assessment

Write a few sentences about what you learned, what science skills you used, and what you would like to explore more.

3

Three science ideas I learned....

2

Two science and engineering skills that I used in this activity:

**Science and Engineering Practices:**

- ☐ I asked questions and tried to solve problems.
- ☐ I did an experiment or investigation.
- ☐ I made or used a model.
- ☐ I explained what I saw and learned.
- ☐ I shared my ideas with others.

**Engineering Design Process:**

- ☐ **Imagine:** I imagined some ways to solve it.
- ☐ **Plan:** I chose an idea and made a plan.
- ☐ **Create:** I built my idea.
- ☐ **Test:** I tried it out and saw how it worked.
- ☐ **Improve:** I made it better!

**Engineering Design Thinking:**

- ☐ I found a problem to solve.
- ☐ I thought of ways to fix it.
- ☐ I worked with others.
- ☐ I tried out my ideas.
- ☐ I changed and improved my ideas.
- ☐ I talked and thought about what I learned.

1

One idea I would like to explore more...
