

## Final Rubric

Was this based on a design plan you submitted?	Does your presentation make sense?	Is the presentation visually appealing?	Did you speak about the engineering process as part of the presentation?	Did you improve on your post-assessment (or remain at 100% from the pre-assessment?)	How much rain was necessary to wash away the Oobleck?	How much did you spend to solve the problem?	Were any LEGO people or Fizza-ma-wizza-ma-dills hurt in the process?
Yes <b>20 points</b>	Yes <b>20 points</b>	Yes <b>20 points</b>	Yes, for more than one statement. <b>20 points</b>	Yes <b>11 points</b>	Less than 20 mL <b>3 points</b>	Less than \$500 <b>3 points</b>	No <b>3 points</b>
Partially <b>15 points</b>	Partially <b>15 points</b>	Partially <b>15 points</b>	Yes <b>10 points</b>	No <b>1 point</b>	More than 20 mL <b>2 points</b>	Between \$501-\$1,000 <b>2 points</b>	One was <b>2 points</b>
No <b>10 points</b>	Minimally <b>10 points</b>	No <b>10 points</b>	No <b>5 points</b>		It could not be washed away <b>1 point</b>	Over budget <b>1 point</b>	Both were <b>1 point</b>
