Engineering Design Process Post-Assessment **Answer Key**

Engineering Design Process Post-Assessment

Add Below there are steps within the engineering design process that need to be placed in order. Label them numerical order with how to work through the engineering design process.

- __ 8 __ Redesign
- __ 4 __ Select the best design
- __ 7 __ Communicate findings
- __ 5 __ Build a prototype
- __ 1 __ Identify the problem or need
- __ 6 __ Test and analyze the prototype
- __ 2 __ Research the problem or need
- __ 3 __ Create possible designs for the prototype
