

Quality Assurance Testing (Construction of Materials)

Your Teacher should have this made ahead of time.
(Any recycled materials work)

Ramp in Photo - Made from a board with a leg attached underneath.
The board was coated with black spray paint.
Yellow and white tape strips were applied.

Drop Test Apparatus - Made from a 10 x 12 x 16 Amazon Box.
Sides reinforced using Hot Glue and a black foam board.
Openings were carefully cut into the box, using a box cutter.
"Drop Test" was stenciled using a Sharpie White Paint marker.
Stickers added for visual appeal.
